

Southern Felt Company, Inc. is a subsidiary of Lydall, Inc., a publicly traded US company with manufacturing operations in the US, UK, France, Germany, Netherlands, and China. Lydall is a diverse manufacturing company focused on specialty engineered products for the thermal/acoustical, filtration/separation, and bio/medical markets.

Lydall acquired the industrial filtration businesses of Andrew Industries Limited on February 20, 2014 including the Southern Felt™, Andrew Webron™, and China Felt Company™ businesses. This acquisition adds significant scale to the company and now makes Lydall one of the largest nonwoven manufacturers in the world. The new Lydall Industrial Filtration Division created through this acquisition will build upon the strong technical textile capabilities of the organization and continue to be a leader in the air pollution control, commercial laundries, office automation, automotive filtration, and home appliance markets.

Southern Felt has been the global leader in technical needlefelt since 1987 with decades of continuous process improvement and investment in the latest manufacturing technology. Our experienced team of textile technologists, engineers, and manufacturing specialists are dedicated to providing solutions and innovative products to meet the demands of today's global market.

Capabilities
